SKINSTRO LEVAN GEL MASK PACK Check Point!

CHECK 01.

I'm curious about how long I should keep the mask on.

Leave the mask on until the sheet turns transparent. Time may vary by skin type, and absorption occurs even if not fully transparent.

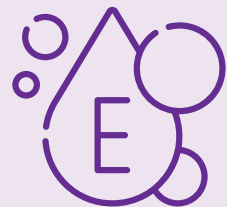

CHECK 02.

Can I use it every day?

For dry skin or before important events, daily use can help boost hydration and soothe the skin more quickly.

CHECK 03.

It looks like there's not enough essence!

This is a gel-type mask pack that doesn't drip when taken out of the pouch. The essence is absorbed into the skin after application. Due to the nature of the material, please be careful as it can tear easily with fingernails.
